

High flyers

Perfect lines, peak performance and powerful design make these watches stand out from the clouds

**PERRELET
TURBINE £3,900**

Equal parts style and performance, Perrelet's unique Turbine watch with titanium blades takes its inspiration from aeronautical hardware, delivering a distinct, masculine aesthetic that is sure to set tongues wagging.

BREMONT U-2 £2,995

There are rugged watches and then there is the Bremont U-2, originally designed for the American pilots of the U-2 spy plane. Able to withstand the G-forces of an ejector seat, rigorous testing took the U-2 to 100,000ft and -70°C. It demands an airspace all of its own.

Jura Watches is a specialist independent watch boutique consisting of a sleek Mayfair store and a top-ranked e-commerce website that continues to set new standards in the luxury retail sector. Jura's friendly staff are passionate about the wide range of niche and established international brands stocked. Jura's innovative usage of technology creates a fun and informed buying experience.
