

# COVER & DRIVE

No matter what the result, the England cricket team has never lacked confidence. The boys make sure they're always looking their best when the heat in the middle rises

## Kevin Pietersen

Style is everthing when KP is taking guard. He's the star of the show, and he uses his Howitzer-like bat with unfailing panache, and needs the dazzling appearance to match. "KP should use BOSS Skin Healthy Look Face Lotion on a daily basis to moisturise and subtly enhance his skin tone," says BOSS skincare expert Tim Brown.

## Andrew Flintoff

Freddie delivers his trademark booming shots and deadly bowling with a proud bead of sweat on his brow. "Not a man to mess around, all Freddie needs is the new BOSS Skin Hair and Body Wash in his bag," says Brown. "After a hard day's play it's perfect to provide freshness with a subtle masculine scent for confidence on and off the pitch."

## Michael Vaughan

The ice-cold captain, Vaughan is a commanding presence in the field, spending long hours applying his formidable cricketing brain to the business of winning in style. "Vaughan should use BOSS Skin Revitalising Moisture Cream with SPF15 on a daily basis rather than just on those long hot match days to help protect his skin," says Brown.
