# POST-SHAVE PERFECTION

Customise your post-shave routine with three smooth moves from Clinique Skin Supplies for Men

Just as there's always room for improvement in your workout routine, so you can make your shaving regime more effective too. No matter what your post-shave problems, Clinique For Men's powerful skin treatments allow you to customise your routine and find a solution to nicks, blemishes or razor rash. Firstly, Clinique's Post-Shave Healer – formulated with aloe to extinguish razor burn – is reason alone to finally clean up that bathroom cabinet and make some room. This solution is guaranteed to put out the flames left behind by a rough razor. The Post-Shave Soother Beard Control Formula is unique to Clinique and will take your shaving regime to a new level. It will actually soften your facial hair as it re-grows – delaying the onset of five o'clock shadow and making your next shave go smoother. One final ingredient to complete your perfect shave is Clinique's Post-Shave Soother Anti-Blemish Formula. No matter how your skin reacts you can rid your world of unsightly blemishes or skin irritants with this essential treatment. In all, Clinique For Men has got your skin covered with a must-have shaving kit customised to suit your individual skin needs.
