SHEAR CLASS

For a perfect shave you need a perfect ensemble

Seven Goran Eriksson has shown; it's great teams, not personalities that win you the best results. If England go on to glory this summer, it won't be down to the (considerable) individual talents of Gerrard or Lampard or Beckham, but rather the sum of their combined efforts. The same applies to getting the most out of your shaving routine. You need star players working together to produce a stellar performance, just like Gillette's own unbeatable trio. The MACH3 Shave Gel provides the team's midfield, offering a smooth and fluid platform in preparation for the M3Power Nitro Razor's triple-pronged, battery-operated attack. Meanwhile, Gillette's MACH3 After Shave Gel acts as your skin's rock solid defence, allowing it to endure a close shave unscathed and come out looking cool and collected. So whoever emerges triumphant come 9 July, Gillette's MACH3 trio will ensure that every man's a winner. It's perfect teamwork for a perfect shave.
