

DRIVENTO perform

Want a car that looks fantastic, drives with punch and has enough room for the golf clubs? You'll want a Mazda RX-8 PZ, then

The words "sports car" and "practical" don't often go together in the same sentence. Sports cars normally put style ahead of function. They are either completely impractical two-seaters or nominal "four-seaters", ie if the people sitting in the back are pygmies who don't mind having the circulation cut off in their little legs. Well this is where the now-familiar Mazda RX-8 is refreshingly different. It does not require any compromise; it allows you to experience the best of both pleasure and practicality. Mazda know it's no use looking good if you can't produce a performance to match. Why would you sculpt your muscles in the mirror only to tweak your hamstring carrying home the shopping? Just as a boxer is the embodiment of skilled fitness, so the Mazda RX-8 is a model of practical finesse.

But now Mazda have improved on perfection to bring you the special edition Mazda RX-8 PZ, of which there are only 800 in the country. Zoom-Zoom over the page to discover precisely why it puts the fun in functionality.

CORRECT, THAT IS A SPECIAL EDITION 18-INCH DARK SILVER OZ RACING ALLOY WHEEL. AND YOU'RE RIGHT, THE LOWERED BILSTEIN SUSPENSION DOES HAVE PRODRIVE-SPECIFIED EIBACH COIL SPRINGS. DAMN, YOU'RE GOOD
