

distinctive AND DARING

Based on the 231ps high-power version of the existing RX-8, this new model has been engineered in partnership with the leaders in performance motoring to make the Mazda RX-8 PZ the most rewarding drive possible. Prodrive have supplied the upgraded twin exhaust system and the precision-engineered rear spoiler to reduce lift and increase stability at high speed. The unique 10-spoke lightweight Racing alloy wheels are made by OZ, the Italian racing specialists, and the revised and lowered suspension is enhanced with Bilstein dampers and Elbach coils.

The award winning Renesis rotary engine packs the punch of a powerful heavyweight while the sharpened steering means it moves with the fluid speed of a champion lightweight. And if the sporty exhaust tone from the upgraded rear silencer is not music enough, there is always the premium Bose® audio system with six CD auto changer.

So pleasurable is the driving experience in the special edition Mazda RX-8 PZ, it makes negotiating Spaghetti Junction feel like taking Copse Corner at Silverstone. And with so few of them in the country, it's a car for the more daring, individual and discerning man who wants to drive in style and have room for the dogs. So why are you waiting? Let yourself go for it. Now that's Zoom-Zoom!
