

It's not what you wear on the pitch – it's what you wear under it. The new Lotto range from JJB Sports will keep you ahead of the pack

Ace of base

Kit matters. What you wear to the gym or on the sports field is more important today than ever. It's not just a case of competing on the catwalk – the gear you pick for sport has an important and tangible effect on your performance and your psychological game.

Top of the list of performance-enhancing togs are base layers. Figure hugging, technology-packed modern fabrics are the hallmarks of top athletes and the top dogs of park running alike.

The new Lotto range, stocked exclusively at JJB Sports, is an introduction to the technology of base layer gear at a great

price. Easily capable of cutting it both in style and performance terms against far pricier competitors, the Lotto range is built from super-lightweight, skin-hugging fabric that controls moisture on the skin and compresses muscles to maximise your energy consumption.

You don't need to have the physique of an All Blacks full-back to look good in the Lotto range. Even better, you don't need to have the wage packet of a Premiership footballer to take advantage of premier kit – the ranges of both shorts and vests starts at £9.99.

The Lotto Primo Strato range is available at selected JJB stores and online at jjbsports.com

LOTTO BASE LAYER RANGE IS AVAILABLE IN LONG SLEEVED TEE, T-SHIRT, VEST AND SUPPORT SHORTS, (IN WHITE, GREY AND BLACK). EXCLUSIVELY AVAILABLE TO BUY FROM SELECTED JJB STORES AND JJBSPORTS.COM
